

Application checklist

What to have ready for every resource in the Help the Helpless guide. Built at the Claude Impact Lab, Birmingham, August 28, 2026.

READ THIS FIRST. Every item below comes from each organization's own public site, verified on 2026-08-28, and nothing more. Requirements change and vary by program, so confirm with each agency before you gather documents. Where a site publishes no checklist, this page says so instead of guessing. This is a printable takeaway from a demo tool, not legal, medical, or benefits advice, and nothing in it is a live feed.

Applications to start

These take time. Starting them early is part of setting the person up to succeed.
